

Presentation - Black Family Dingan

Option 1: Seeking investors for a crypto mining farm.

We are looking for strategic partners to finance and develop a crypto mining farm in West Africa.

Option 2: Management of large-scale projects.

We provide serious and transparent support for managing ambitious projects.

Transparency: reports available daily or 3 times a week (Monday, Wednesday, Friday).

Meetings every 15 days: planning expenses, monitoring progress, and profitability after project completion.

Note: I am fluent in French and the local Casamance language, but not in English.
